Note.—In the Return here submitted, the statement of Irish Commerce for the Periods terminating on 5 January 1830, 5 January 1832 and 5 January 1834, is necessarily confined to the Trade carried on with Foreign Parts; the Trade with Great Britain having since the Year 1825 been governed by Coasting Regulations, which deprive this Department of the means of keeping any record of the interchange of Goods between the two Countries, except in so far as the article of Corn is concerned.

Note.—The view which this Statement affords of the Average Consumption of the Periods terminating on 5th January 1830, 5th January 1832, and 5th January 1834, is to a certain extent defective, inasmuch as the Coasting Regulations by which the Cross Channel Trade has been governed since the Year 1825, prevent the keeping of any record of goods imported Duty free from Great Britain, either in the case of British Productions or of Foreign Merchandize, upon which Duty has already been paid in a British Port.—Of the Articles included in the present Account, those in respect to which the comparison is most affected by this circumstance, are, Refined Sugar, Flax Seed, Cotton Wool, Cotton Yarn, Woollen Yarn, Raw and Thrown Silk, and Unwrought Iron.

The Consumption of Tea in Ireland cannot be ascertained for any Annual Period later than the Year ended 5th January 1828, a Regulation having been established in the course of the following Year, which requires that Tea, destined for consumption in Ireland, shall be charged with Duty in Great Britain, previously to its delivery from the Warehouses.

The Consumption of Coals cannot be shown for any Year subsequent to 1830, it having ceased to be ascertainable on the discontinuance of the Coasting Duty.

20.—A STATEMENT showing what additional Amount of CUSTOMS REVENUE would have accrued in *Ireland* in each Year since the Union, if Rates equal to those chargeable in *Great Britain* had in all cases been levied upon the Quantities of the various Articles subject to Customs Duties, which were actually entered for Consumption in the respective Years.

Principal Articles upon which a difference existed between the British and Irish Rates of Duty.	Amount received in Ireland at the Rates of Duty actually chargeable on the respective Articles in that Country.	Estimated Amount which would have been received upon an equal Consumption, if the Rates of Duty had been the same as in Great Britain.	Excess of Revenue beyond the Amount actually collected, which would have accrued of the British Rates had been paid upon the Quantities consumed in Ireland.

	£.
The Total Amount of Taxes raised in Great Britain since the Year 1800, of which no similar Duties have been imposed in Ireland*, is	201,106,403
The excess of the Assessed Taxes raised in Great Britain beyond the amount which would have been raised had the rates of Duty been similar to those paid in Ireland from 1800 to 1822, when the Assessed Taxes in Ireland ceased, is, at a rough estimate, about	80,237,406
Amount of Assessed Taxes raised in Great Britain since the repeal of the Assessed Taxes in Ireland	45,133,544
Total Excess of Taxation in Great Britain	£. 326,477,353
As a set-off against the above excess may be mentioned the Hearth Tax in Ireland, which has produced during the same period the sum of	1,160,492
Net Excess	£ 325,316,861

* *Vide* Account, No. 23.

	£.
Land Tax	43,497,297
Income Tax	9,613,991
Aid and Contribution	67,892

26.—RETURN showing the DIFFERENCE in the RATES and AMOUNT of STAMP DUTIES in *Great Britain* and in *Ireland*, since the Year 1800.

The Total Amount of Stamp Duties raised in England since 1800, is	£. 181,232,000
In Scotland	13,461,000
In Ireland	13,897,000

In England and Scotland the Duty on Deeds and other written Instruments is 80 *l.* per cent. higher than in Ireland.

On Legacies	£. 100	per cent.
On Probates	50	ditto.
On Administrations	120	ditto.
On Receipts	65	ditto.
On Newspapers	100	ditto.
On Almanacks	60	ditto.
On Fire Insurances	20	ditto.
On Advertisements	50	ditto.

In Ireland there are no Duties, or ever have been,

On Patent Medicines.
On Stage Coaches.
On Post Horses.
On Race Horses.
On Hackney Coaches.

The gross Amount of Stamp Duties raised in England since the year 1800, of which no similar Duties have been imposed in Ireland, is about	£. 20,000,000
And in Scotland	600,000

If England and Scotland had been taxed at the same rates of Stamp Duty as Ireland, there would have been raised in England since 1800 (according to the best estimate that can be formed) about the sum of 81,697,000*l.* less than has been paid. And in Scotland 4,941,000 *l.* less.

And if Ireland had paid the same rates of Duty as England, an additional sum of 9,565,000 *l.* would have been paid by that country since 1800 beyond that which has been raised thereon.
